

A large, mature tree with a thick trunk and dense foliage stands in a garden. In the foreground, a stone bench with intricate carvings is positioned under the tree's shade. Behind the tree, a white house with a window is visible, partially obscured by a stone wall. The scene is set in a well-maintained garden with various plants and shrubs.

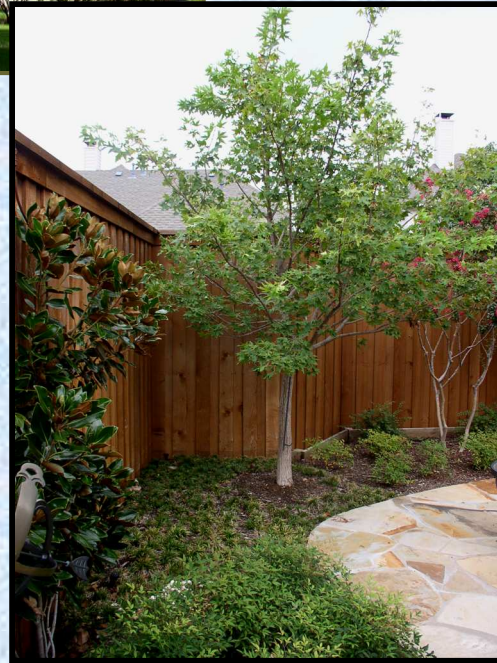

Shade

TREES

Planting trees is important to the environment. They provide shade to outdoor areas, enhance your landscaping and increase the value of your home.

Don't build your landscape around "quick shade" trees that are short-lived. Take a tour through our "tree farm" and choose the tree best suited for your needs.

Let us help you find the
“right” tree for your needs:

Large or Small

Reliable Fall color

Evergreen or Deciduous

Drought Tolerant

Alkaline Soil Tolerant

Texas Natives and Adapted

Texas Superstars
